LinkedIn GitHub

Full Stack developer with web design skills. Expert in technologies such as NodeJS, React, Redux, SQL, among others in the sector. Additionally, I have entrepreneurial experience on Shopify, running my own e-commerce with a successful track record of over 1000 orders. These experiences have been fundamental for the development of both my technical skills and my soft skills, such as creativity, teamwork, empathy, communication, leadership, innovation, self-motivation, among others. Specialized in Front-end with knowledge in agile methodologies, GIT, data structure, algorithms, CSS frameworks such as Tailwind CSS, as well as construction tools such as Webpack. Experience in Front End development with HTML, CSS, JavaScript and in particular in frameworks such as React, Vite and Next.js.

English Level: Advanced.

PROJECTS

Full Stack Web Developer - CONNECTINK   Sep. 2023 - Dic. 2023 Academic experience.
Henry Bootcamp

Application that aimed to facilitate and manage appointments between a tattoo artist and a client.

Develop the user interface, implementing a modern and responsive design.
Use Redux to manage the global state of the application and facilitate data flow between components.
